The Magical Joy Of Writing: Anyone Can Write Ossie Smith
Finally, a book that will motivate you to write with confidence, style and originality.

Anyone could become an author. Anyone could write a very interesting book. Even if a person is illiterate, yes even if a person cannot read or write; yes, it is true, “Anyone could become an author.” Check many bloggers on line.

The reason for such a bold, profound and shocking statement is quite simple. There are many books published without words; yes, just photos or art work. These books are popular and sell very well. As you read further, we will analyze many truths as well as myths about writing and not writing.

Have you ever seen a stream flow backwards? Never, right? Perhaps we could pay closer attention to details around us and familiarize ourselves with the abundance of interesting facts that often go unnoticed. The purpose of this book is to enlighten and encourage you, at whatever age, to become a writer and certainly an author, in a not so instructional way. This book also contains humor. When you delve in and savor these undeniable yet unforgettable illustrations, you will acquire the sensation that mirrors that feeling of getting to the fruits at the bottom of a Dannon yogurt.

An enjoyable read and if you are lucky, we may even land on the imaginary set of ‘The Cosby Show…..’

So kick back, absorb and amuse yourself with the fun fulfilling flow of writing confidently, poetically and with ease through practice.

If you don’t wish to write a book, you will still learn that it is not hard if you ever decide to do so one day, but, either way, you will be happy you’ve read this book that appeals and stimulates your mental apetite and simplify your hidden ability to becoming an author.

Most would agree that anyone with money could produce a book by paying to have it written and published. Many at some point feel confident and truly believe that they could write a unique and intriguing book about themselves anyway. Perhaps the idea is to just simply tell the story to a good writer. Yea…let someone else do the work. Latoya Jackson had a National Best Seller book around 1992 self-titled ‘La Toya’ written by La Toya Jackson with Patricia Romanowski and there’s this foot-notation ‘with a gallery of great Jackson photos.’ If you were curious about the life of Michael Jackson, back then, the Jackson family and in fairness, La Toya as well, you would have purchased the book. That was 20 + years ago. It’s a good read with many interesting family photos smack in the middle; dominated by Mike.

The sad reality is that the majority of us chose not to write and those who do write are thought of as courageous while some become authors and others become wealthy beyond their wildest dreams or expectations. These are of course, successful authors and some best-selling authors.

I’m sure you have heard many people from all walks of life say, “My life story is so interesting maan, I could write a book.” Perhaps you’ve said so yourself, more than once. A friend would answer, “Yes, you should write a book.” The question is, why not start now?
Have you ever picked up a children’s book and really scrutinized how simplistic it is? The reality is that it

takes tremendous effort to present colorful sceneries, imagery and illustrative art to complete a child’s book. Most books for tots and toddlers are hot competitions of who could present the best knock-out photos or color illustrations. Many of the images and color photos are so well thought out; they even captivate the attention of adults. After all, parents and teachers are the ones who select and purchase most of these books for their children.
It is a highly competitive market, but rest assured, there will always be accommodation and expectation from new writers, ugh um…authors, to be added to the list. You could be the next author from your neck of the woods.

When was the last time you visited the library? Let's take a trip down memory lane and learn from a few book
