100 Quotes by Francis Bacon (Great Philosophers and Their Inspiring Thoughts) Francis Bacon
Sir Francis Bacon had a tremendous impact on science and philosophy during the scientific revolution in XVIIth-century England. He was the first to argue for a skeptical and methodical approach in science, based on careful observation of events in nature, and founded on induction. His work, firmly grounded in empiricism to prevent projection of one's preferred hypothesis, made him the father of scientific method. This was a groundbreaking turn of events at the time, and is still the basis of the scientific framework today.

We have selected for you 100 of his most influential quotes, for you to discover the inner workings of an honest scientific mind, and get inspired by his straightforward approach.
