Stanley Marianski, Adam Marianski

Home Production of Vodkas, Infusions & Liqueurs Stanley Marianski, Adam Marianski
Home Production of Vodkas, Infusion and Liqueurs is another first of its kind book from Stanley and Adam Marianski. This is not just a collection of recipes, but a set of rules that govern the process of making vodka and other alcoholic beverages. A quote from the book: "From the start, we decided not to write another recipe book. A collection of recipes does not make a person proficient in a new skill. You have to know the How and Why of making spirits; you have to know the rules that govern the process. First of all you have to realize that alcohol is just a tool, albeit a very important one. Once you understand how to manipulate the properties of alcohol, the rest will fall into place." To get the reader started, a collection of 103 detailed recipes are included, which can be studied and used as a reference. By carefully reading this book you will discover that producing new spirits is almost like cooking, one needs to first know the basics and then let the imagination run wild. Everything falls into place and making new drinks becomes routine. After practicing the technique of creating drinks a couple of times, the spirits will consistently be of high quality, become crystal clear and look beautiful. The process can become an art form.
