50 Core American Documents Required Reading for Students, Teachers and Citizens

50 Core American Documents Required Reading for Students, Teachers and Citizens
The Ashbrook Center's 50 Core American Documents is meant to introduce readers to America's story as it has unfolded from the American Founding into the Twentieth Century. Many of the documents emphasize America's uniqueness and contributions to the world, but they also present different views on some of the major issues and disputes in American history and government, especially on the meaning of liberty, the injustice of slavery, and the demands of progress. Taken as such, the documents reveal a kind of political dialogue to readers, an ongoing and profoundly consequential conversation about how Americans have agreed and often disagreed on the meaning of freedom and self-government. 50 Core American Documents invites teachers and citizens alike to join in this American political dialogue. - The Ashbrook Center restores and strengthens the capacities of the American people for constitutional self-government. The Center teaches students and teachers across our country why America is exceptional and what America represents in the long history of the world. Ashbrook is the nation's largest university-based educator in the enduring principles and practice of free government in the United States, offering programs and resources for students, teachers, and citizens.
