Nursing Assessment in the Clinical Setting - Volume 2 - The Neurological System Margaret Agard
NURSING ASSESSMENT IN THE CLINICAL SETTING – VOLUME 2
THE NEUROLOGICAL SYSTEM

Hey, are you that nurse who is intimidated by words
like ICP Monitoring or Cranial Nerve Assessment?
Well, this book is just for you. It is packed with
plenty of colorful images of the Clinical setting.
Learning is easy and enjoyable.

This book is the second (Volume 2) in the series. It is
put together by a Registered Nurse with decades of experience in
Advanced Healthcare Facilities. This awesome book is based on first
hand experience with Neurotrauma patients in the ICU.
The information is provided in a simple and nurse friendly way.

This series of books on assessment of the body's systems,
is designed to help the new or experienced nurse become
familiar with different clinical areas.
No one can determine when an emergency situation may
occur. The nurse who can challenge an environment that
is unfamiliar and do it successfully, is a winner.

Volume 2 covers Assessment of the Neurological System and
ICP Monitoring is presented like never before. This book will
enhance your learning curve on the brain and spinal cord plus
their functions.

It must be remembered that although the information provided
is current, medical information is constantly changing.
Always follow your Institution's Policies and Procedures and
MD orders.
