A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition) John Hornsby, Margaret L. Lial, Gary K. Rockswold
Books à la Carte are unbound, three-hole-punch versions of the textbook. This lower cost option is easy to transport and comes with same access code or media that would be packaged with the bound book.

A **Graphical Approach to College Algebra** illustrates how the graph of a function can be used to support the solutions of equations and inequalities involving the function. Beginning with linear functions in Chapter 1, the text uses a four-part process to analyze each type of function, starting first with the graph of the function, then the equation, the associated inequality of that equation, and ending with applications. The text covers all of the topics typically caught in a college algebra course, but with an organization that fosters students' understanding of the interrelationships among graphs, equations, and inequalities.

With the **Fifth Edition,** the text continues to evolve as it addresses the changing needs of today's students. Included are additional components to build skills, address critical thinking, solve applications, and apply technology to support traditional algebraic solutions, while maintaining its unique table of contents and functions-based approach. **A Graphical Approach to College Algebra** continues to incorporate an open design, with helpful features and careful explanations of topics.

This Package Contains:
A Graphical Approach to College Algebra, Fifth Edition, (à la Carte edition) with MyMathLab/MyStatLab Student Access Kit

From reader reviews:

Randall Yang:

The book A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition) can give more knowledge and information about everything you want. Exactly why must we leave the best thing like a book A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition)? A few of you have a different opinion about book. But one aim which book can give many details for us. It is absolutely correct. Right now, try to closer with your book. Knowledge or info that you take for that, it is possible to give for each other; you are able to share all of these. Book A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition) has simple shape however you know: it has great and massive function for you. You can seem the enormous world by open and read a publication. So it is very wonderful.

Joseph Chandler:

The book A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition) will bring you to definitely the new experience of reading some sort of book. The author style to describe the idea is very unique. In case you try to find new book to study, this book very suitable to you. The book A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition) is much recommended to you to read. You can also get the e-book from official web site, so you can quicker to read the book.

Billy Anderson:

As a university student exactly feel bored in order to reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's internal or real their hobby. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading seriously. Any students feel that reading is not important, boring and can't see colorful images on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition) can make you sense more interested to read.

Eun Russell:

What is your hobby? Have you heard which question when you got college students? We believe that that question was given by teacher on their students. Many kinds of hobby, Everybody has different hobby. Therefore you know that little person including reading or as examining become their hobby. You need to know that reading is very important as well as book as to be the point. Book is important thing to increase you knowledge, except your own teacher or lecturer. You get good news or update about something by book.

A substantial number of sorts of books that can you choose to use be your object. One of them is this A Graphical Approach to College Algebra, A La Carte Plus MyMathLab -- Access Card Package (5th Edition).
