Some doors can only be unlocked by the right hand…

It was in her friend's rare books shop that Briana Wright first saw Taron Hildebrand, a too-gorgeous-to-be-real twenty-something Englishman dressed for a night at the opera rather than an obscure shop in midtown. Unnerved by his unusual orange-tinted hazel eyes and flustered by his intensity and charm, her initial alarm raises several notches with his immediate interest and offer of an obscene amount of money for the old hand-bound book written in a strange alphabet she had found in her recently deceased grandmother's collection. Not keen on giving up such an intriguing mystery, she refuses his offer and is surprised when he leaves the shop without even a token fuss.

Briana should have known he would be back, but when Taron claims the book is a family heirloom he's been searching for and is able to perfectly describe the sole drawing of a skeleton key contained within the book, her initial misgivings quickly turn to excitement when she realizes that she's on the brink of solving the mystery of the book's origins.

Unfortunately, she didn't count on others being just as interested in learning the book's secrets and that the price she has to pay for that knowledge is having to run for her life. She sure as hell didn't count on suddenly learning that dragons are real and being dragged into a centuries-long dragon civil war by Taron, one of those dragons shifted into human form that insists she is the key to finally ending their stalemate.

Most of all, she didn't count on falling in love…

Contains adult content and language.
