Firefighter Fatality Summaries U.S. Fire Administration, Federal Emergency Managment Agency, TriData Corporation
Over an 11-year period from 1990 to 2000, more than 1 million firefighters have been injured, and 1,068 have lost their lives. This report focuses on the fatalities suffered by firefighters and other officials engaged in the suppression of fires over this 11-year span. The bulk of this report is in chronological order by the date of the incident that caused the death, and it reflects the individual's name, affiliation, and department. Summaries of the incidents themselves were unavailable for the years 1990–1993, but they are included for the next 7 years.
