The Sub Rosa Manuscript Barry Kelly
Matthew Huntley believed he could handle one more tough assignment. He had no idea this one would be the hardest ever. Nor did he know that breaking his oath of silence to the Council of Advisors would be necessary to preserve the American way of life. Government is the problem. This book is for the people so we can all learn the warning signs of a government led by those who want to take away the people's rights and give them to an elite group. Reading The Sub Rosa Manuscript will shed a penetrating light into the opaqueness of the transformation process and illuminate how far its stepping-stone approach has moved our country on the path to socialism and a diminishing world role. It is a wake-up call for all of us. The message in these pages applies to governments of the left or right, now or in the future. This is not a book the progressive administration wants you to read. The CIA took more than four months to approve this book for publication under their charter to protect classified information. It does not contain, nor did it ever contain, classified information, only hundreds of pages of 'not politically correct' material."
