Real Estate: Blueprint to Generate passive income for life through investing in income property starting with very little money (Real Estate Investing, Income Property, Flipping Houses) Jason Brown
Welcome to the world of real estate investing, my name is Jason Brown and I have been a real estate investor since the age of 19. I've owned properties in 11 states and 17 cities. I've had vast experience with thousands of real estate transactions, hundreds of my own tenants and I've experienced the ups and downs of real estate investing. I believe that income property is the most historically proven asset class in America. Millions of people have become very wealthy starting with very little money with income property.
In this book, we will learn many amazing things. We will learn how to evaluate real estate markets; how to evaluate properties; how to evaluate your own investment strategy; how to determine specific types of properties you should peruse for investment; successfully acquire properties for your portfolio; how to effectively sell properties that you own and how to do that on a tax deferred basis
Income property is the most historically proven asset class but is also the most tax favored asset class, we are going to talk about that a lot too, because the single largest expense that any of us have in our lives is taxes, so if we can minimize that, we can create a wealth for life.
We will also learn how to manage properties, how to manage your portfolio and how to create spectacular results with that.
When you complete the book, you will be armed with the skills and knowledge necessary to become an amazing real estate investor
So join me on this amazing real estate investing journey and learn how to create your own real estate portfolio and create your own financial independence!
