$1 million! Seriously?

No! And if you're seriously asking that question, then you really do need to read this book. If for even just a split second there your heart leapt and your bank account flashed before your eyes, you definitely need Steve "Ninja" Bilker's help, just not in the way you think.

The scammers are out there; they're always hungry and they can smell your interest and desperation a mile away.

Well if I'm not going to make $1 million, what's the point of the book?

The point is that this book can save you money - money that you might otherwise hand over to scammers in good faith. And not only money, it can also save you pride, dignity and self-respect. Written for anyone who's ever fallen for a 'get rich quick' scam, this book walks you through all the warning signs of the nefarious online money-making schemes that you should steer clear of. It may read like just humorous satire on the surface, but it carefully and accurately points out each of the steps that these harmful schemes will take you through. It may appear exaggerated and simplified, but Bilker's satire nonetheless deftly portrays an unfortunate truth. There are people out there willing to promise you anything to get their hands on your money, and whilst you wouldn't pay them $1 million, if a hundred gullible souls each paid them $10,000 . . .

Ok, so how do I get rich then?

No gimmicky scheme is ever going to make you an overnight millionaire. Once you get your head around that, you can hunker down and start grafting hard instead. Bilker's satire will potentially save you endless wasted time chasing impossible promises and hemorrhaging money along the way.

"Maybe, just maybe, you will learn to spot the lies. Maybe, just maybe, you'll learn to distinguish between genuine and useful information and the marketing techniques used to sell you on things you don't need and that won't help you. Because while this is a work of humor, it is also based on real experience, real research, and an honest revelation of the marketing practices that are being used to extract money from you."

Armor yourself against the scam artists, and buy a copy of Bilker's book today.
