Eclipse 1919: and the general relativity theory Gatot Soedarto
If Einstein's theory of general relativity was correct, then the light from stars that passed closest to the sun would show the greatest degree of bending, and the stars whose light tracks are very far from the sun have their lights not being bent or deflected. The stars whose lights are not deflected means that there is no difference between the apparent position and the true position of the stars. If being consistent with this theory, it means that all stars visible at night time are at the appearance of the stars on their true positions, because the said stars do not pass through the field of gravity. This is certainly incorrect if it is seen from the astronomical scientific point of view. The stars in the sky at night time and seen by the observers, all are stars on apparent positions, not on their true positions. Einstein ignored light refraction: astronomical refraction and terrestrial refraction, and ignored three dimensional positions of stars (celestial sphere coordinate system), when he proposed the proving method for general relativity. Einstein’s proving method via eclipse is not scientific and deeply wrong. General Relativity has been wrong since the beginning.

From reader reviews:

Marcus Laws:

Have you spare time for the day? What do you do when you have a lot more or little spare time? Yep, you can choose the suitable activity for spend your time. Any person spent their particular spare time to take a move, shopping, or went to the actual Mall. How about open or perhaps read a book titled Eclipse 1919: and the general relativity theory? Maybe it is to become best activity for you. You realize beside you can spend your time using your favorite's book, you can cleverer than before. Do you agree with its opinion or you have some other opinion?

Jonathan Woods:

Do you one of people who can't read pleasurable if the sentence chained inside the straightway, hold on guys this kind of aren't like that. This Eclipse 1919: and the general relativity theory book is readable by you who hate the perfect word style. You will find the facts here are arrange for enjoyable looking at experience without leaving possibly decrease the knowledge that want to provide to you. The writer of Eclipse 1919: and the general relativity theory content conveys the idea easily to understand by many individuals. The printed and e-book are not different in the written content but it just different such as it. So , do you nonetheless thinking Eclipse 1919: and the general relativity theory is not loveable to be your top collection reading book?

Mary Nixon:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your day time to upgrading your mind proficiency or thinking skill perhaps analytical thinking? Then you are having problem with the book as compared to can satisfy your small amount of time to read it because this time you only find book that need more time to be examine. Eclipse 1919: and the general relativity theory can be your answer because it can be read by you who have those short extra time problems.

Larry Morris:

Do you like reading a publication? Confuse to looking for your favorite book? Or your book ended up being rare? Why so many issue for the book? But any people feel that they enjoy intended for reading. Some people likes examining, not only science book and also novel and Eclipse 1919: and the general relativity theory or even others sources were given information for you. After you know how the great a book, you feel want to read more and more. Science e-book was created for teacher or maybe students especially. Those textbooks are helping them to increase their knowledge. In additional case, beside science book, any other book likes Eclipse 1919: and the general relativity theory to make your spare time a lot more colorful. Many types of book like here.
